## AMC U.S. Innovation Challenge

### Doing Well by Doing Good

The AMC U.S. Innovation Challenge is a multi-round event that combines hands-on consulting experience with the opportunity to make a positive impact on the community. First year student teams work collaboratively to develop a solution for a case based on a real-world challenge faced by a national non-profit. Compete against teams from other MBA programs for the opportunity to pitch your idea to our non-profit partners and Accenture senior leadership in Washington, DC, as well as to potentially secure a summer internship offer.

- **September 23: Registration Deadline**

Interested students are required to submit contact information and resumes as a team by this date. Apply online at [accenture.com/AMCinnovation](http://accenture.com/AMCinnovation)

*Please note that this competition is open to the Class of 2015 only. Because competition winners will receive an internship offer, eligible students must have United States work authorization that does not now or in the future require Visa sponsorship to accept employment with Accenture (i.e., H1-B visa, F-1 visa (OPT), TN visa or any other non-immigrant status). See the [Official Terms and Conditions](#) for details.*

- **Early October: Information Session on Campus**

Joins us in Sage Hall to learn more about the Innovation Challenge and ask questions.

- **October 16: Initial Materials Distributed**

Initial information will be released to 1<sup>st</sup> year student teams the day of the Challenge.

### **First Round Presentations**

Teams will be assigned an Accenture coach who will help guide them through the case—just as our managers do on our real client projects. A panel of judges made up of Accenture and Johnson faculty will judge this first round on campus. Up to two teams will be selected to move onto the semi-final round.

- **November 4 - 12: Second Rounds**

Teams selected on October 16 will have a few weeks to update their presentations with feedback from round 1 and further develop the business case and implementation roadmap.

- **November 21 - 22: Final Round**

Three teams from across the country will be selected to travel to DC for final round presentations. They will have the opportunity to present their idea to Accenture and non-profit leadership.
